

BOARD OF AGRICULTURE AND FISHERIES.

**AGRICULTURAL STATISTICS,
1912.**

VOL. XLVII. PART III.

PRICES AND SUPPLIES

OF

**CORN, LIVE STOCK, and other AGRICULTURAL PRODUCE
IN
GREAT BRITAIN.**

Presented to both Houses of Parliament by Command of His Majesty.

LONDON:

PUBLISHED BY HIS MAJESTY'S STATIONERY OFFICE.

To be purchased, either directly or through any Bookseller, from
WYMAN AND SONS, LTD., FETTER LANE, E.C., and 32, ABINGDON STREET, S.W.,
and 54, ST. MARY STREET, CARDIFF; or
H.M. STATIONERY OFFICE (SCOTTISH BRANCH), 23, FORTH STREET, EDINBURGH; or
E. PONSONBY, LTD., 116, GRAFTON STREET, DUBLIN;
or from the Agencies in the British Colonies and Dependencies,
the United States of America, the Continent of Europe and Abroad of
T. FISHER UNWIN, LONDON, W.C.

PRINTED BY

**EYRE AND SPOTTISWOODE, LTD., EAST HARDING STREET, E.C.,
PRINTERS TO THE KING'S MOST EXCELLENT MAJESTY.**

1913.

[Cd. 6906.]

Price 5d.

1. **Government Publications** (with the exceptions mentioned in paragraphs 2 to 6) can be bought, either directly or through any bookseller, from—
WYMAN AND SONS, LTD., Fetter Lane, London, E.C., and 54, St. Mary Street, Cardiff; or
H.M. STATIONERY OFFICE (SCOTTISH BRANCH), 23, Forth Street, Edinburgh; or
E. PONSONBY, LTD., 116, Grafton Street, Dublin;
 or from the Agencies in the British Colonies and Dependencies, the United States of America, the Continent of Europe and Abroad of
T. FISHER UNWIN, London, W.C.

Booksellers, and the accredited agents of Free Public Libraries, are entitled to a discount of 25 per cent. from published prices.

2. **Hydrographical Publications of the Admiralty** are sold by—

J. D. POTTER, 145, Minorities, London, E.C.

3. **Patent Office Publications** are sold at—

The Patent Office, 25, Southampton Buildings, Chancery Lane, London, W.C.
 (N.B.—Classified Abridgments of Patent Specifications are sold also by Wyman and Sons, Ltd.)

4. **Ordnance Survey and Geological Survey Publications** can be purchased from—The Director General of the Ordnance Survey, Southampton; or

The Superintendent, Ordnance Survey, Dublin; or

Agents in most of the chief towns in the United Kingdom.

(N.B.—Small Scale Maps are, as a rule, procurable at Railway Bookstalls in England and Wales.)

5. The **Journal of the Board of Agriculture** is published monthly by the Board, at 4, Whitehall Place, London, S.W. Price 4d.

6. The **London Gazette** is published on Tuesday and Friday evenings by—

Wyman and Sons, Ltd. Price 1s.

The following is a list of some of the more important Parliamentary and Official Publications recently issued:—

Statutes—

Public General Acts, Local and Personal Acts, 1912. In separate Acts, at varying prices.

Public General, Session 1911. With Index, Tables, &c. 3s.

Second Revised Edition, 1235-1900. Vols. I. to XX. 7s. 6d. each.

Statutes in Force. Chronological Table and Index of. 27th Edition. To the end of the Session 1 and 2 Geo. V. (1911). 2 vols. 10s. 6d.

Interregnum, 1642-1660. Acts and Ordinances of the. In 3 vols. (not sold separately). 30s.

Acts of the Parliaments of Scotland, 1424-1707. Revised Edition. 10s.

Statutory Rules and Orders other than those of a Local, Personal, or Temporary Character. Issued in 1890 to 1911. 10s. each.

Statutory Rules and Orders revised, in force on Dec. 31, 1903. Vols. I. to XIII. 10s. each.

Statutory Rules and Orders in force on 31st December 1909. Index to. 10s.

HISTORICAL MANUSCRIPTS. Reports of the Royal Commissioners. In course of issue.

LIFE SAVING APPLIANCES AND SAFETY OF LIFE AT SEA. Report of the Advisory Committee respecting Regulations. [Cd. 6353.] 2s.

Do. Rules. H.C. 442. 2½d.

STATISTICAL ABSTRACT. UNITED KINGDOM. 1897 to 1911. [Cd. 6399.] 1s. 9d.

MINERS' SAFETY LAMPS. TESTING OF. Report of Departmental Committee on. [Cd. 6387.] 5½d.

ISOLATION HOSPITALS. Report. [Cd. 6342.] 1s. 7d.

METALLIFEROUS MINES AND QUARRIES. ROYAL COMMISSION ON. Evidence, Appendices, and Index. [Cd. 6390.] 3s. 3d.

STATISTICAL TABLES, BRITISH COLONIES. 1910. [Cd. 6400.] 6s. 6d.

CHANGES IN WAGES AND HOURS OF LABOUR, 1911. Report. [Cd. 6471.] 8d.

DIVORCE AND MATRIMONIAL CAUSES. ROYAL COMMISSION ON. Majority and Minority Reports with Evidence and Appendices. [Cd. 6478, 6479, 6480, 6481, 6482.] 17s. 9d.

WORKMEN'S COMPENSATION STATISTICS. 1911. [Cd. 6493.] 6½d.

FOREIGN IMPORT DUTIES. 1912. [Cd. 6475.] 4s. 10d.

COLONIAL IMPORT DUTIES. 1912. [Cd. 6476.] 3s. 3d.

PROFIT SHARING AND CO-PARTNERSHIP. UNITED KINGDOM. [Cd. 6496.] 8½d.

LINEN AND OTHER MAKING-UP TRADES OF THE NORTH OF IRELAND. Report of Committee on Conditions of Employment; with Evidence and Index. [Cd. 6509.] 1s. 9d.

STATISTICAL ABSTRACT FOR THE COLONIES FROM 1897 to 1911. [Cd. 6533.] 1s. 10d.

EAST INDIA. SANITARY MEASURES PROGRESS. Papers relating to the Imperial Malaria Conference, &c.; Food and Drugs; Town Planning; Vital Statistics, &c. [Cd. 6538.] 2s.

DOMINIONS. ROYAL COMMISSION. NATURAL RESOURCES, TRADE, &c. First Interim Report, with Evidence, &c. [Cd. 6515, 6516, 6517.] 6s. 3½d.

JUDICIAL STATISTICS, ENGLAND AND WALES, 1911. Criminal. [Cd. 6602.] 1s. 6d.

CIVIL SERVICE, ROYAL COMMISSION. Second Report, with Evidence, &c. [Cd. 6534, 6535.] 5s. 1½d.

DURATION OF BUILDINGS FOR SMALL HOLDINGS. Report of Committee. [Cd. 6536.] 2½d.

INDUSTRIAL DIRECTORY. UNITED KINGDOM, 1913. [Cd. 6546.] 1s. 2d.

CONGO. Correspondence respecting the Affairs of. [Cd. 6606.] 11½d.

LONDON TRAFFIC BOARD. Report 1912 (with maps). [Cd. 6608.] 6s.

CANADA. INDUSTRIAL DISPUTES INVESTIGATION ACT, 1907. Report. [Cd. 6603.] 3½d.

AGRICULTURAL STATISTICS.

The annual AGRICULTURAL STATISTICS for 1912 are issued in five parts, as follows:—

Part I.—(Cd. 6597, price 5½d.).

Report.

Tables: Section I.—Area under Crops and Live Stock.

" " II.—Value of Land.

Part II.—(Cd. 6636, price 3½d.).

Report.

Tables: Section III.—Produce of Crops.

" " IV.—Weather Statistics.

Part III.—(Cd. 6906, price 5s.).

Report.

Tables: Section V.—Prices of Corn and Bread.

" " VI.—Prices of Live Stock and other Agricultural Produce.

" " VII.—Supply of Live Stock at Markets.

" " VIII.—Trade in Live Stock with Ireland.

Part IV.—Imports and Exports of Agricultural Produce. (*In the press*.)

Part V.—Foreign and Colonial Statistics. (*In preparation*.)

NOTE.—These publications may be purchased (either directly or through a book-seller) *only* from the agents mentioned on the title-page.

BOARD OF AGRICULTURE AND FISHERIES.

AGRICULTURAL STATISTICS, 1912.

PART III.

REPORT TO THE SECRETARY OF THE BOARD OF AGRICULTURE AND FISHERIES.

SIR,

I BEG to submit the third part of the Agricultural Statistics for 1912 containing tables of the prices of corn, live stock, and other agricultural commodities, of supplies of home-bred live stock at markets, and of the trade in live stock between Ireland and Great Britain.

Four markets were added in 1912 to the list of places at which reporters are appointed and returns obtained for the Board's weekly Return of Market Prices. These were Taunton, King's Lynn, Penrith, and Gloucester.

PRICES IN 1912.

Corn.

The average price of wheat in 1912, as calculated from the weekly returns received under the Corn Returns Act, was 34s. 9d. per imperial quarter, being 3s. 1d. higher than in 1911 and 1910. If the average price (36s. 11d.) reached in 1909 be excepted, the price in 1912 was the highest returned since 1891, when 37s. was recorded, while all the annual averages from 1885 to 1890 were also lower than in 1912.

The *Gazette* average for wheat in the first week of 1912 was 33s. 2d. per quarter, prices having steadily risen to this level during the previous autumn. The average reached 34s. 6d. at the end of February, and in April rose rapidly until 38s. 1d. was returned in the first week of May, and at the beginning of August 39s. 2d. was returned, sales being at that time very small. Owing to the stormy and wet weather, the new crop was very late in reaching the markets, the contrast in this respect with the early and fine harvest of 1911 being very marked. The total quantity of wheat returned as sold in the

scheduled towns in the last five months of 1912 was only 947,311 quarters, as compared with 1,674,188 quarters in the same months of 1911.

By the end of August the average price had fallen to 34s. 10d. per quarter, and by the end of September it was 31s. 7d. From this point prices recovered somewhat, 33s. 4d. being returned at the beginning of November. Until the end of the year, however, wheat steadily declined until in Christmas week the average reached 29s. 10d. per quarter, this being the first week since the end of November 1910 in which the average had fallen below 30s. per quarter.

The average price of barley in 1912 was 30s. 8d. per quarter, being 3s. 5d. higher than in 1911 and 7s. 7d. higher than in 1910. The 1912 average was the highest returned since 1884, when the price was the same. The *Gazette* price in the first week of January was 33s. 3d. per quarter, or 1d. per quarter higher than the wheat average, and from this level, which was the highest of the year, prices gradually declined, though only two weekly averages before August were less than 30s. per quarter. The new crop came to market slowly, especially so when compared with the previous year's crop, and the unsatisfactory quality and condition of the grain resulted in lower prices. For August 28s. 9d. per quarter was recorded, for September 29s. 6d., for October 30s. 7d., and for November 31s. 3d. For December, however, the price averaged 2s. 2d. per quarter less than in November. The total quantity of barley returned as sold in 1912, 2,166,000 quarters, was much below the average of recent years owing partly to the early sales effected of the crop of 1911, leaving much less than usual to market early in 1912, and partly to the smaller sales in the autumn of 1912 owing to the poor condition of the grain.

The average price returned for oats in 1912 was 21s. 6d. per quarter, being the highest since 1882. As compared with 1911 the price was 2s. 8d. higher. At the commencement of 1912 the *Gazette* average was 20s. 7d. per quarter, from which level prices advanced, with steadily diminishing sales, until 24s. 8d. per quarter was returned at mid-July. The price dropped rapidly as the new oats came into the market, the average for August being 21s. 6d., and for September 20s. 4d., while in the last three months of the year the price averaged 19s. 7d. The total quantity returned as sold at the scheduled towns was only 631,000 quarters, being the smallest recorded since 1897.

The substitution in the septennial average prices of wheat, barley, and oats of the prices of 1912 for those of 1905 raised the value of 100l. of tithe rentcharge to 74l. 14s. 9½d., representing an increase of 2l. 0s. 7½d. over the value of the previous year. The value now stands at the highest level attained since 1893.

Table 53 shows that the average price of bread per 4 lb. loaf rose slightly in the first part of 1912 and afterwards remained practically stationary save for local variations. The average price for Great Britain during 1912 was approximately 6d. per 4 lb. loaf, being nearly ½d. higher than in 1911 and the same as in 1910.

Fat Stock and Meat.

All kinds of live-stock—for meat—made higher prices in 1912 than in the previous year, which was itself above the average of the five years, 1906–10, as appears from the following table, which gives the prices for first quality animals of the classes specified in English markets:—

| Year. | Cattle. | | Sheep. | Pigs. | |
|---------|-------------------|-------------------|----------------|-------------------|-------------------|
| | Polled Scots. | Shorthorns. | Downs. | Porkers. | Baconers. |
| | <i>Per stone.</i> | <i>Per stone.</i> | <i>Per lb.</i> | <i>Per stone.</i> | <i>Per stone.</i> |
| | <i>s. d.</i> | <i>s. d.</i> | <i>d.</i> | <i>s. d.</i> | <i>s. d.</i> |
| 1906–10 | 8 2 | 8 0 | 8½ | 7 5 | 6 11 |
| 1911 | 8 5 | 8 2 | 7½ | 7 3 | 6 8 |
| 1912 | 9 3 | 9 0 | 8½ | 7 8 | 7 4 |

The most notable advance recorded is that of beef cattle, which were 8d. to 10d. per stone dearer in 1912 than in the previous year, and fully 1s. more than in the quinquennium 1906–10. Indeed, although comparisons so far back cannot be made with absolute certainty, it may safely be said that similar prices have not been obtained for fat cattle since 1884. The returns of cattle sold by live-weight give the same indication, the averages of 37s. 9d. per cwt. in England, and 40s. per cwt. in Scotland, obtained for animals sold in this manner, being the highest since these data were first collected under the Act of 1891. Prices of dead-meat were correspondingly high, beef being some 5s. to 8s. per cwt. above the previous year, and the long series of beef prices given in Table 63 show nothing higher since 1881–5. A feature of the table of monthly prices (64) is the absence, during the last quarter of the year, of any returns of the price of United States and Canadian port-killed beef; owing to the trade in live cattle from across the Atlantic having been almost extinguished, there was practically no such beef in the market. English, imported chilled, and more especially Scotch, beef showed the greatest rise; frozen kinds were mostly 2s. 6d. to 5s. per cwt. more than in 1911. Veal, both British and foreign, was very little dearer.

Sheep and mutton prices also showed considerable expansion, and were better than in 1911 or than the average of 1906–10; but they were not so abnormally dear as was beef; as, except

Argentine and Australian, they were certainly as high, or higher, in 1907. Lamb was also rather higher in 1912 than in 1911.

Bacon pigs and porkers were very high in price, showing a marked recovery after the fall recorded in the previous year. They did not, however, again reach the very exceptional prices attained in 1910. These prices were, however, rising steadily throughout the year, and the highest monthly average was recorded in December. Pork prices followed those of pigs, and bacon was also higher on the year, but hams, both home and foreign, were cheaper. Bacon prices also followed a more normal course during the year, attaining their highest level in the late summer, but British and Irish hams rose suddenly in November.

Store Stock.

Prices of store cattle were unusually high in 1912. This was especially marked in the case of older and stronger stores, as the following averages for two- and three-year-olds of first quality indicate.

| Breed. | Two-year-olds. | | | | Three-year-olds. | | | |
|----------------|----------------|-------|-------|-------|------------------|-------|-------|-------|
| | 1909. | 1910. | 1911. | 1912. | 1909. | 1910. | 1911. | 1912. |
| | £ s. | £ s. | £ s. | £ s. | £ s. | £ s. | £ s. | £ s. |
| Shorthorns - | 14 7 | 14 16 | 14 4 | 15 7 | 17 2 | 17 14 | 17 1 | 18 8 |
| Herefords - | 15 7 | 15 8 | 15 11 | 15 14 | 17 13 | 18 0 | 18 2 | 18 9 |
| Welsh Runts - | 14 5 | 15 4 | 14 2 | 15 1 | 16 19 | 17 1 | 19 2 | 17 6 |
| Polled Scots - | 15 15 | 16 12 | 16 11 | 18 4 | — | — | — | — |

The figures show considerable differences as between the different breeds, but on the whole there was an increase in 1912 of nearly five per cent. upon the prices of 1911.

On the whole, stores were much dearer in the latter half of the year than in the spring. Thus two-year-old Shorthorns of first quality ranged from 13*l.* 17*s.* to 15*l.* 12*s.* on the monthly averages from January to June, and from 15*l.* 3*s.* to 16*l.* 10*s.* during the rest of the year. Three-year-old Shorthorns, which rose to 18*l.* 12*s.* before July, reached 19*l.* 16*s.* in December. Polled Scots also rose considerably, the highest monthly average for two-year-olds being 18*l.* 10*s.* before July, whereas in the four later months of the year the average was always above 19*l.*, and in November reached 20*l.* 19*s.* Herefords and Welsh Runts, on the other hand, were not appreciably dearer in the latter part of the year than in the spring; indeed, the latter were on the whole rather cheaper.

The outbreak of foot and mouth disease and the consequent interference with the Irish cattle supplies caused serious disturbance in the trade for store cattle, which for a time was dislocated. From July to November only 3,946 cattle, described

as stores, arrived in Great Britain from Ireland, although the number of "fat" cattle received during that period was 182,965, or 38,526 more than the average for those months during the three previous years. It is estimated that the deficiency of Irish stores for winter feeding in 1912 as compared with 1911 was about 140,000, while the agricultural returns showed that in June there were about 50,000 less cattle of two years and over (excluding milking cows and heifers) than in the previous year. There was consequently a marked local shortage of stores in the winter-feeding districts, and prices rose considerably, but at the same time it was significant that in some of the chief cattle-breeding districts store cattle were very little dearer than usual. Under these circumstances the practical utility of the Board's weekly Return of Market Prices was demonstrated, and the situation was alleviated by the dissemination, by this means, of information which enabled graziers to obtain supplies from districts where they were available at more or less normal prices. In this connection it may be noted that the weekly Market Return has since the first of January 1913 been issued free of charge, and may now be obtained regularly on application to the Board by any farmer who desires to receive it.

The prices of store sheep, though not so high as in 1908, were generally higher than in the three years 1909-11, as is shown in the following comparison of average prices per head of first quality hogs or tegs of different breeds:—

| Breed. | 1908. | 1909. | 1910. | 1911. | 1912. |
|-----------------------|-------|-------|-------|-------|-------|
| | s. d. | s. d. | s. d. | s. d. | s. d. |
| Downs or Longwools - | 41 5 | 34 7 | 37 2 | 35 0 | 37 7 |
| Scotch Cross-breeds - | 32 2 | 27 2 | 30 3 | 30 7 | 31 4 |
| Scotch Half-breeds - | 33 11 | 30 0 | 33 7 | 34 2 | 35 7 |
| Cheviots - - - | 29 4 | 23 8 | 27 7 | 27 4 | 27 11 |
| Blackfaced - - - | 21 6 | 18 10 | 20 5 | 20 2 | 20 7 |

From January to May 1912 the average price of Downs and Longwools rose by 9s. per head, and in the last six months of the year the rise was even greater. The deficiency in the number of sheep in the country revealed by the agricultural returns in June was no doubt largely accountable for the increase.

Milk.

The average monthly prices are shown in Table 60. Milk supplies were very full in January, and trade was very quiet until the last week, when the demand slightly improved. At Edinburgh, however, the demand was good and steady throughout the month. With a return of mild weather in February the market was still fully supplied and the demand quiet, though prices advanced on the month at Birmingham and Manchester,

and at Liverpool Street and Stratford Stations in London. Supplies were still full and trade was bad in March, prices falling at all the reported cities except Edinburgh. At Birmingham and Manchester the decline was from 10d. to 8d. per imperial gallon, at Glasgow from 11d. to 9½d., while in London the average fall was from 9½d. to 7½d. At Edinburgh the price to retailers remained at 11d. During April supplies were very plentiful, and prices fell further all round, except at Edinburgh. In May a London reporter wrote:—"Lady-day contracts have now all been settled. This March has been somewhat different from any previous year, inasmuch as last September contracts were mostly made for seven instead of six months, as is usual, April being treated as a winter month; this has had the effect of prolonging the 'bargaining' period until the beginning of May, instead of its being completed as usual by the first week in April. Owing to full supplies, dealers were in no hurry to enter into contracts, consequently farmers had to accept lower prices than they anticipated in order to effect a prompt sale. The general prices obtained were 7½d. per imperial gallon for the summer, and 9½d. for the winter months."

Supplies continued plentiful in the early summer. In May prices were very low, but in June a slight improvement occurred as supplies became more normal in the second half of the month. The Edinburgh and Glasgow prices, however, were at their lowest in June and July. In the middle of July, a spell of hot weather produced a brisk demand, but for most of July and August trade was quiet, especially in August, when prices were very low in London, the average for the month at Paddington being only 4½d. per gallon.

Early in September floods in different parts of the country reduced the supplies offered, and prices rose. Generally the demand began to improve, and cold weather shortened the quantity of milk available. At the end of the month London contracts were mostly made at 10d. to 10½d. per gallon for the six winter, and 7d. to 8d. for the six summer, months. At Birmingham the corresponding prices were 9½d. to 10d. for seven winter, and 7d. to 7½d. for five summer, months; at Manchester, winter six months, 10d. to 10½d., summer six months, 7½d. to 7¾d., railway milk. The demand and prices improved further in October and November; in the early part of December some scarcity of milk was experienced and prices ruled rather high, the month's average at London being 10¾d., at Birmingham 12¼d., at Manchester 12¾d., at Edinburgh 11d., and at Glasgow 10½d., these prices averaging practically 1d. per gallon more than in December 1911.

A feature of the trade in dairy cows in 1912 was the high prices realised in the closing months of the year. The price for good Shorthorns in milk, which averaged 20*l.* 16*s.* per head in May, being then rather low as grass was scarce, was, in

December, 24*l.* 2*s.* The price for good Ayrshires in milk rose from 16*l.* 11*s.* in March to 23*l.* 9*s.* in December. In spite of these high prices the average price for Shorthorn milking cows showed practically no change in the year. Ayrshires, however, advanced noticeably, first quality cows in milk averaging 19*l.* 10*s.* per head in 1912 as compared with 18*l.* 5*s.* in 1911.

Butter, Cheese, and Eggs.

Prices of butter maintained a level in 1912 which in most instances was higher than in the previous year, and was the highest recorded since these returns were first collected in 1904. In the following table the annual prices for first quality of certain representative classes of butter and cheese in 1912 are compared with those of 1911 and with the average for 1906-10:—

| Year. | Butter. | | | | Cheese. | |
|---------|--------------------|-----------------|---------------|---------------|------------------|---------------|
| | British. | Irish Creamery. | Danish. | New Zealand. | British Cheddar. | Canadian. |
| | Dos. lbs. s. d. | Cwt. s. d. | Cwt. s. d. | Cwt. s. d. | Cwt. s. d. | Cwt. s. d. |
| 1906-10 | 14 1 | 112 0 | 118 6 | 112 6 | 73 0 | 61 6 |
| 1911 | 14 5 | 119 0 | 124 6 | 114 6 | 77 0 | 64 6 |
| 1912 | 14 7 | 118 6 | 129 0 | 122 6 | 79 6 | 70 0 |

The table shows that imported butters increased most in price in recent years. From the table of monthly average prices (Table 65) it will be found that although quotations for the cheaper descriptions of butter tended downwards, on the whole, in 1912, from the high level at the beginning of the year, the minimum prices were not nearly so low as in 1911.

Cheese made higher prices than in 1911, imported cheese more particularly. The rise in value of British Cheddar was moderate, but the average of the March and October contract prices of both English and imported Cheddar at London County Asylums for 1912 (Table 67) was the highest on record for these contracts, which extend over 20 years. The prices for Cheshire cheese at the Chester, Nantwich, and Whitchurch Cheese Fairs were somewhat lower than in 1911, but the average price at Liverpool advanced slightly.

All descriptions of eggs made more money in 1912, the prices of Irish and Danish eggs rising rather more than those of British eggs.

Wool.

Particulars of the prices of British wool are given in Tables 76-79. The usual reports on the country wool sales in June, July, and August were obtained; as a rule, the fleeces were shown in good condition, and prices for practically all

descriptions were slightly higher than in 1911. Scotch cross-bred fleeces, however, showed no advance, and Cheviot fleeces were slightly lower in price.

At Bradford the average prices of home-grown wool tended steadily upward during the year, and prices in December were about 1½d. per lb. above those of January. Averaging the annual prices for all descriptions shown in Table 77, it appears that the general rise in 1912 over the prices of 1911 was 1¾d. per lb.

Vegetables.

The table (68) of monthly average prices of potatoes shows that in the first six months of 1912 prices were considerably lower than in 1911, when supplies were very short and prices extremely high. The new crop was marketed earlier in 1912 than in 1911, and prices commenced very high, but fell in August to a level below that of the corresponding month of 1911. After this, however, prices began to rise steadily owing to the shortness of the crop, and in December Edward VII.'s were making about 20s., and Up-to-dates 16s., per ton more than in the same month of 1911.

When the extreme difference of weather conditions in 1912 and 1911 is considered the fluctuations in the prices of other vegetables appear small. The chief movements were towards lower prices, and among the vegetables making less money were home-grown beans, brussels sprouts, cucumbers, lettuce, home-grown onions and peas, and vegetable marrow. Asparagus, beet, cabbage, cauliflowers, parsnips, tomatoes, and turnips were somewhat dearer. Taking together the vegetables shown in Table 68 (other than potatoes), prices for the year were 6 per cent. lower than in 1911, but nearly 15 per cent. higher than in 1910.

Fruit.

The monthly and seasonal average prices of fruit are tabulated in Table 70. While Blenheim and Cox's Orange apples made higher prices in 1912, other sorts sold for less money, and on the average British apples dropped 8 per cent. in price as compared with 1911. The fall in price of imported apples was slightly greater. Other fruit showed practically no change in the seasonal price, when taken as a whole, though damsons, gooseberries, and pears were much cheaper, and muscat grapes, greengages, and strawberries much dearer. The tendency with plums varied, some kinds selling for more and others for less than in 1911.

Hay and Straw.

Both clover and meadow hay sold at high prices throughout the year, the crop of 1912, though much inferior in quality to that of 1911, selling in the markets at only a few shillings per ton less than the 1911 crop during the first half of the year. Taking the

level of prices for the whole of 1912, best clover hay averaged 108s. 6d. per ton as compared with 97s. 6d. in 1911, and best meadow hay 105s. 6d. as compared with 88s. 6d. Straw also made higher prices than in 1911, though quotations tended downwards when the crop of 1912 was placed on the market.

Hops.

The first report on the crop of 1912 from the Board's Reporter at the London Hop Exchange was received in the week ending 11th September, or two weeks later than in 1911. Supplies were then limited, but towards the end of the month larger quantities of excellent hops were brought forward. Enquiries were numerous, but growers were not pressing for sales; prices consequently were firm, and in the week ended 25th September a limited business was done at the following rates per cwt.:—East Kents, 140s. to 160s.; Mid Kents, 126s. to 147s.; Wealds, 115s. to 135s.; Sussex, 105s. to 125s.; Farnhams, 125s. to 130s.; Worcesters, 120s. to 140s. In the last week of the month quotations for Kent and Sussex hops were slightly lower, but those for Farnhams and Worcesters were slightly higher. At Worcester, on the 28th September, best hops were scarce, and prices ranged from 120s. to 140s. per cwt.

During October the more important growths came on offer at the Borough market, but trade was quiet and values weakened somewhat, the downward tendency continuing until about the middle of November, when quotations were generally at their lowest, East Kents ranging from 105s. to 126s., Mid Kents 100s. to 115s., Wealds 100s. to 125s., Sussex 100s. to 115s., Farnhams 100s. to 126s., and Worcesters 105s. to 135s., per cwt. In the second half of November, however, a firmer tone was felt and prices improved, the bulk of the business being done in the lower qualities, and hardly any hops were obtainable under 100s. per cwt. The demand for the cheaper sorts improved further in December, and at the middle of the month most sales in London were being effected at 110s. to 115s. per cwt., little attention being given to choice samples, the value of which was stationary. At Worcester, the choicest qualities were making up to 140s. and in one instance 147s. in October, but with poor qualities on offer quotations weakened, and at the closing sales in November prices ranged from 110s. to 130s. per cwt.

For comparison with previous years it may be noted that the average price at which the crop of 1912 was valued for the purpose of the Report on Part II. of the Agricultural Statistics was 121s. per cwt. as compared with 209s. in 1911, and 105s. in 1910.

SUPPLIES OF LIVE STOCK AT MARKETS.

The following table shows the numbers of fat and store stock, respectively, returned as entering 52 markets in Great

Britain, in each quarter of 1912, with the totals of 1910, 1911, and 1912. It should be noted that in the corresponding tables published in previous years the figures for cattle included dairy cows and calves. In the present table, however, dairy cows and calves are excluded from the figures.

| Period. | Cattle. | | Sheep. | | Pigs. | |
|------------------|-----------|---------|-----------|-----------|---------|---------|
| | Fat. | Store. | Fat. | Store. | Fat. | Store. |
| January—March - | 256,844 | 108,278 | 938,737 | 212,020 | 209,358 | 56,875 |
| April—June - | 258,911 | 213,219 | 1,123,410 | 502,575 | 173,481 | 70,921 |
| July—September - | 140,654 | 93,462 | 810,972 | 880,401 | 141,282 | 46,731 |
| October—December | 164,057 | 170,642 | 758,371 | 770,557 | 170,772 | 57,922 |
| Year 1912 - | 795,466 | 580,601 | 3,631,490 | 2,365,453 | 694,893 | 232,449 |
| Year 1911 - | 974,847 | 565,683 | 4,301,990 | 2,271,317 | 680,110 | 239,612 |
| Year 1910 - | 1,004,509 | 759,832 | 4,359,149 | 2,545,856 | 896,015 | 192,857 |

The number of fat cattle entered shows a large decrease as compared with 1911 and 1910, and this decrease was almost entirely in the last six months of 1912, when the number entering was about 40 per cent. less than in the same part of 1911. The supplies of store cattle in 1912 were slightly more than in 1911 when the shortness of keep occasioned by the prolonged drought seriously affected the trade. As with fat cattle, the numbers were lowest in the second part of 1912. The number of fat sheep was much smaller than usual in the second half of 1912, while the supplies of store sheep were slightly more than in 1911, though considerably less than in 1910. During the past three years the number of fat pigs entered has increased by 100,000 or about one-sixth. The figures for the second half of 1912 seemed, however, to show a tendency to reduction.

WEIGHING OF LIVE STOCK.

The returns received for 1912 from markets scheduled under the Markets and Fairs (Weighing of Cattle) Acts afford some slight evidence of an extension of the practice of weighing fat stock. The percentage of fat cattle entering which were weighed was, for Great Britain as a whole, 45 in 1912, as compared with 44 in 1911, 42 in 1910, and 40 in 1909. The percentage has now risen to 31 in England and 80 in Scotland. The English markets showing the largest increase in 1912 in proportion of fat cattle weighed were Wellington (Salop) and Shrewsbury. The percentage of store cattle weighed in England rose from 13 to 15 in the year.

I have the honour to be, Sir,

Your obedient Servant,

R. H. REW.

3, St. James's Square, S.W.

16th May 1913.

- 1. Government Publications** (with the exceptions mentioned in paragraphs 2 to 6) can be bought, either directly or through any bookseller, from—
WYMAN AND SONS, LTD., Fetter Lane, London, E.C., and 54, St. Mary Street, Cardiff; or
H.M. STATIONERY OFFICE (SCOTTISH BRANCH), 23, Forth Street, Edinburgh; or
R. PONSONBY, LTD., 116, Grafton Street, Dublin;
or from the Agencies in the British Colonies and Dependencies, the United States of America, the Continent of Europe and Abroad of
T. FISHER UNWIN, London, W.C.
Booksellers, and the accredited agents of Free Public Libraries, are entitled to a discount of 25 per cent. from published prices.
- 2. Hydrographical Publications of the Admiralty** are sold by—
J. D. POTTER, 145, Minories, London, E.C.
- 3. Patent Office Publications** are sold at—
The Patent Office, 25, Southampton Buildings, Chancery Lane, London, W.C.
(N.B.—Classified Abridgments of Patent Specifications are sold also by Wyman and Sons, Ltd.)
- 4. Ordnance Survey and Geological Survey Publications** can be purchased from—The Director General of the Ordnance Survey, Southampton; or
The Superintendent, Ordnance Survey, Dublin; or
Agents in most of the chief towns in the United Kingdom.
(N.B.—Small Scale Maps are, as a rule, procurable at Railway Bookstalls in England and Wales.)
- 5. The Journal of the Board of Agriculture** is published monthly by the Board, at 4, Whitehall Place, London, S.W. Price 4d.
- 6. The London Gazette** is published on Tuesday and Friday evenings by Wyman and Sons, Ltd. Price 1s.

The following is a list of some of the more important Parliamentary and Official Publications recently issued:—

DEBATES OF THE HOUSE OF LORDS AND HOUSE OF COMMONS in daily parts 3d. each, or in bound volumes at varying prices.

Statutes—

- Public General Acts, Local and Personal Acts, 1913.* In separate Acts, at varying prices.
- Public General, Session 1912-13.* With Index, Tables, &c. 3s.
- Second Revised Edition. 1235-1900.* Vols. I. to XX. 7s. 6d. each.
- Statutes in Force. Chronological Table and Index of.* 28th Edition. To the end of the Session 2 and 3 Geo. V. (1912-13). 2 vols. 10s. 6d.
- Interregnum, 1642-1660. Acts and Ordinances of the.* In 3 vols. (not sold separately). 30s.
- Acts of the Parliaments of Scotland, 1424-1707. Revised Edition.* 10s.
- Statutory Rules and Orders* other than those of a Local, Personal, or Temporary Character. Issued in 1890 to 1912. 10s. each.
- Statutory Rules and Orders revised, in force on Dec. 31, 1903.* Vols. I. to XIII. 10s. each.
- Statutory Rules and Orders in force on 31st December 1912.* Index to. 10s.
- HISTORICAL MANUSCRIPTS.** Reports of the Royal Commissioners. In course of issue.
- STATISTICAL ABSTRACT, BRITISH EMPIRE, 1897-1911.** [Cd. 6622.] 1s. 3d.
- Do. **BRITISH INDIA, 1901-2 to 1910-11.** [Cd. 6637.] 1s. 3d.
- Do. **FOREIGN COUNTRIES, 1900 to 1910-11.** [Cd. 6698.] 2s.
- TUBERCULOSIS COMMITTEE.** Final Report and Appendix. [Cd. 6641, 6654.] 1s. 10d.
- TUBERCULOSIS, HUMAN AND ANIMAL.** ROYAL COMMISSION. Report on Tuberculosis Tests. [Cd. 6796.] 5s. 7d.
- NIGHT EMPLOYMENT IN FACTORIES OF MALE YOUNG PERSONS COMMITTEE.** Report, Evidence, &c. [Cd. 6503, 6711.] 2s. 6d.
- FORESTRY DEVELOPMENT.** Report of Advisory Committee. [Cd. 6713.] 6d.
- UNIVERSITY EDUCATION IN LONDON COMMISSION.** Final Report, Evidence, &c. [Cd. 6717, 6718.] 4s. 5d.
- IRISH FINANCE COMMITTEE.** Evidence and Appendices. [Cd. 6799.] 2s.
- PRIMARY EDUCATION, IRELAND, COMMITTEE.** First Report, Evidence, and Appendices. [Cd. 6828, 6829.] 1s. 10d.
- REFORMATORY AND INDUSTRIAL SCHOOLS COMMITTEE.** Report. [Cd. 6838.] 1s.
- BOATS AND DAUGHTS COMMITTEE.** Report (with plans). [Cd. 6846.] 2s. 5d.
- FACTORIES AND WORKSHOPS.** Report. 1912. [Cd. 6852.] 2s. 5d.
- NATIONAL INSURANCE COMMITTEE.** Report, with Evidence, &c., on the Supply of Medicines to Insured Persons. [Cd. 6853, 6854.] 1s. 6d.
- SCOTTISH LAND COURT.** First Report. April-Dec. 1912. [Cd. 6864.] 1s. 2d.
- EAST INDIA. STATE TECHNICAL SCHOLARSHIPS.** Report of Committee, with Appendices. [Cd. 6867.] 1s. 5d.
- CANADA.** Report on Trade. 1912. [Cd. 6870.] 3d.
- RURAL EDUCATION CONFERENCE.** Manual Processes of Agriculture. 8th Report. [Cd. 6871.] 3d.
- TRADE BOARDS ACT, 1909.** Memoranda in reference to the Working of. H.C. 134. 3d.
- FINANCE ACCOUNTS OF THE UNITED KINGDOM, 1912-13.** H.C. 173. 5d.
- SELF-GOVERNING DOMINIONS.** Report of the Colonial Office, 1912-13. [Cd. 6863.] 1s. 5d.

AGRICULTURAL STATISTICS,
1912.

VOL. XLVII. PART IV.

IMPORTS AND EXPORTS

OF

CORN, LIVE STOCK, and other AGRICULTURAL PRODUCE.

Presented to both Houses of Parliament by Command of His Majesty.

LONDON:

PRINTED UNDER THE AUTHORITY OF HIS MAJESTY'S
STATIONERY OFFICE

By EYRE AND SPOTTISWOODE, LTD., EAST HARDING STREET, E.C.,
PRINTERS TO THE KING'S MOST EXCELLENT MAJESTY.

AGRICULTURAL STATISTICS OF GREAT BRITAIN.

The annual AGRICULTURAL STATISTICS for 1912 are issued in five parts, as follows:—

Part I.—(Cd. 6597, price 5½d.)

Report.

Tables: Section I.—Area under Crops and Live Stock.

" " II.—Value of Land.

Part II.—(Cd. 6636, price 3½d.)

Report.

Tables: Section III.—Produce of Crops.

" " IV.—Weather Statistics.

Part III.—(Cd. 6906, price 5s.)

Report.

Tables: Section V.—Prices of Corn and Bread.

" " VI.—Prices of Live Stock and other Agricultural Produce.

" " VII.—Supply of Live Stock at Markets.

" " VIII.—Trade in Live Stock with Ireland.

Part IV.—(Cd. 7012, price 5s.)

Report.

Tables: Section IX.—Imports of Agricultural Produce.

" " X.—Exports " "

Part V.—Foreign and Colonial Statistics. (*In preparation.*)

NOTE.—These publications may be purchased (either directly or through a book seller) *only* from the agents mentioned on the title-page.

BOARD OF AGRICULTURE AND FISHERIES.

AGRICULTURAL STATISTICS, 1912.

PART IV.

REPORT TO THE SECRETARY OF THE BOARD OF AGRICULTURE AND FISHERIES.

SIR,

I BEG to submit the fourth part of the volume of Agricultural Statistics for 1912, containing tables showing in detail the imports and exports of agricultural commodities to and from the United Kingdom, which are specially supplied to the Board by the Commissioners of Customs and Excise.

THE GROWTH OF AGRICULTURAL IMPORTS.

In the corresponding part for 1911 a brief summary was given of the increased importation of the principal articles of food which come into direct competition with similar home products. It may be of interest now to extend the survey to a brief comparison of the overseas supplies of all commodities which may be classed as agricultural. Such a classification must necessarily be an arbitrary one, but generally speaking it is here applied to those products which directly compete with the produce of British farms or are used exclusively by British farmers. It comprises, in fact, all the articles for which statistics are given in the succeeding tables. They may be grouped in four categories, viz., (1) Animal food products, (2) Vegetable food products, (3) Other farm products, (4) Agricultural requisites, and the imports are shown in septennial averages of values in four periods ranging from 1876 to 1912.

Taking first the group of animal food products, the following table gives the figures for four septennia (*see* page 276).

The increase in this group of imports, representing the animal food products of the farm, amounts to 136 per cent. in the later, as compared with the earlier, period. Dead meat has

increased by 215 per cent. (28,962,000*l.*), but live cattle, sheep, and pigs have decreased by 30 per cent. (2,363,000*l.*). The importation of dairy produce has increased by 130 per cent.

| Group 1. | 1876-82. | 1886-92. | 1896-1902. | 1906-12. |
|--------------------------------|------------|------------|------------|------------|
| | £ | £ | £ | £ |
| Live Cattle, Sheep, and Pigs - | 7,977,000 | 8,743,000 | 9,863,000 | 5,614,000 |
| Dead Meat - | 18,456,000 | 17,659,000 | 32,203,000 | 42,418,000 |
| Rabbits, Poultry, and Game - | 405,000 | 769,000 | 1,454,000 | 1,777,000 |
| Dairy produce - | 15,260,000 | 18,619,000 | 27,279,000 | 35,167,000 |
| Lard - | 1,739,000 | 1,898,000 | 3,206,000 | 4,911,000 |
| Eggs - | 2,406,000 | 3,273,000 | 5,036,000 | 7,473,000 |
| Total - | 41,243,000 | 50,961,000 | 79,041,000 | 97,860,000 |

The group of vegetable food products includes a considerable variety of commodities which are summarised below:—

| Group 2. | 1876-82. | 1886-92. | 1896-1902. | 1906-12. |
|--------------------------|------------|------------|------------|-------------|
| | £ | £ | £ | £ |
| Wheat and Flour | 38,255,000 | 32,786,000 | 33,917,000 | 46,624,000 |
| Other Grain and Meal - | 22,163,000 | 19,860,000 | 24,625,000 | 26,016,000 |
| Rice, Sago, Sugar, &c. - | 28,870,000 | 23,820,000 | 22,421,000 | 28,943,000 |
| Fruit and Nuts - | 3,937,000 | 4,928,000 | 7,474,000 | 10,693,000 |
| Vegetables - | 2,799,000 | 2,271,000 | 3,871,000 | 4,160,000 |
| Total - | 96,024,000 | 83,165,000 | 92,308,000 | 116,436,000 |

While the first group comprised only products which directly compete with home produce in the sense that all are capable of production in this country, the second group includes a number of articles which only compete indirectly, *e.g.*, maize, rice, sago, sugar, and bananas. The details of the products included will be found in the subsequent tables. The influence of prices in this table is marked, the values of the cereal and farinaceous products in the earlier period being greater than in the two intermediate periods. The increase, therefore, as compared with the earlier period, is not more than 21 per cent., whereas the increase as compared with 1886-92 is 40 per cent. The greatest increase occurred in fruit and nuts, mainly due to the large importation of apples and bananas.

The third group comprises agricultural products other than food, and is somewhat heterogeneous. So large a proportion of wool imported is re-exported that in that case it seems better to

give the net imports rather than, as in all other cases, the gross imports:—

| Group 3. | 1876-82. | 1886-92. | 1896-1902. | 1906-12. |
|-------------------------|------------|------------|------------|------------|
| | £ | £ | £ | £ |
| Wool (net im-ports) - - | 11,031,000 | 11,682,000 | 12,509,000 | 18,075,000 |
| Hides, &c. - - | 7,307,000 | 6,259,000 | 5,839,000 | 10,994,000 |
| Flax and Hemp - | 5,801,000 | 5,455,000 | 5,825,000 | 7,246,000 |
| Horses - - | 572,000 | 293,000 | 1,122,000 | 485,000 |
| Total - - | 24,711,000 | 23,689,000 | 25,295,000 | 36,800,000 |

In this group there was a marked increase in the last septennium, mainly due to the larger imports of wool, although there was also a notable increase in the imports of hides, with which are included sheep skins, tallow, and stearine (see Table 105).

The fourth group comprises only three kinds of commodities, all of which are used on the farm and go towards increasing home production:—

| Group 4. | 1876-82. | 1886-92. | 1896-1902. | 1906-12. |
|-----------------|------------|------------|------------|------------|
| | £ | £ | £ | £ |
| Oil-cake - - | 9,120,000 | 8,377,000 | 8,637,000 | 11,389,000 |
| Seeds - - | 1,552,000 | 1,329,000 | 1,431,000 | 5,638,000 |
| Fertilizers - - | 2,310,000 | 2,273,000 | 2,098,000 | 2,688,000 |
| Total - - | 12,982,000 | 11,979,000 | 12,166,000 | 17,715,000 |

In this group also there was comparatively little variation in the three earlier periods, but a marked increase in 1906-12. Under the heading oil cake is included flax seed, cotton seed, rape seed, and cattle foods (see Table 107). The increase under the heading of seeds is mainly due to the large importation of soya beans during the last three years.

Summarising these figures and restricting the comparison to the earlier and later periods—1876-82 and 1906-12—the table on page 278 shows the average growth of imports of agricultural commodities over 30 years.

The average annual imports of agricultural commodities of all kinds, therefore, have increased from 174,960,000*l.* in 1876-82 to 268,311,000*l.*, or by 53 per cent.

MEAT SUPPLIES.

The year 1912 was in some respects abnormal as regards supplies of meat. The number of cattle imported alive has

| — | 1876-82. | 1906-12. | Increase. | |
|--------------------------------|-------------|-------------|------------|-----------|
| | £ | £ | £ | Per cent. |
| 1. Animal food products - - | 41,243,000 | 97,360,000 | 56,117,000 | 136 |
| 2. Vegetable food products - - | 96,024,000 | 116,436,000 | 20,412,000 | 21 |
| 3. Other farm products - - | 24,711,000 | 36,800,000 | 12,089,000 | 49 |
| 4. Agricultural requisites - - | 12,982,000 | 17,715,000 | 4,733,000 | 36 |
| Total - - | 174,960,000 | 268,311,000 | 93,351,000 | 53 |

been declining year by year since 1905, when 565,000 were landed. In 1911 the number had fallen to 200,000, but in 1912 it fell to less than one-fourth of that, the total received being only 49,000. Imports of live sheep, which practically ceased in 1910, but recovered slightly in 1911, fell again to 15,000 in 1912. In 1895 the total imported was over 1,000,000, and for the four succeeding years it was about two-thirds of that number.

The decadence of the trade in animals "on the hoof" has been balanced by the increased imports of animals "in the carcass." The quantity of fresh beef imported in 1912 exceeded, for the first time, 8,000,000 cwts., having doubled in 10 years. The imports of fresh mutton amounted to over 5,000,000 cwts., being somewhat less than in 1910 and 1911, but over 1,000,000 cwts. more than they were 10 years ago. Taking all kinds of meat together, the aggregate overseas receipts were in 1912, as in 1911, about 21,000,000 cwts., but the value was nearly 2,500,000*l.* more, the total reaching 46,521,000*l.*

On the whole, however, if all kinds of meat, i.e., beef, veal, mutton, lamb, and pigmeat, including that imported alive, are taken into account, it is curious that the aggregate imports have not substantially increased in recent years, or at any rate have not kept pace with the growth of population. It cannot be said that this is due to increased home supplies. These latter can only be estimated, but the information collected in connection with the Census of Production and published by the Board in the Report on the Agricultural Output (Cd. 6,277), together with similar information collected by the Department of Agriculture and Technical Instruction for Ireland, have enabled calculations of the home meat supplies to be made which may be accepted with some confidence, and so far as comparison from year to year is concerned, afford a trustworthy measure of production. It may be of interest to give these figures alongside those of imports for 12 years—the year in this case being from June to May, as the figures for home

supplies are necessarily based on the annual agricultural returns collected in that month. The following statement shows the total meat supply (in thousands of cwts.) estimated to have been produced in the United Kingdom and received from oversea, with proportions of each and the amount per head of population for each of the past 12 years:—

| Year ending June 4th. | Total Quantities (000's omitted). | | | Percentage. | | Per Head of Population. | | |
|-----------------------|-----------------------------------|-----------|--------|-------------|-----------|-------------------------|-----------|--------|
| | Home. | Imported. | Total. | Home. | Imported. | Home. | Imported. | Total. |
| | Cwts. | Cwts. | Cwts. | | | Lbs. | Lbs. | Lbs. |
| 1900-1 | 29,330 | 20,936 | 50,266 | 58.3 | 41.7 | 79.5 | 56.8 | 136.3 |
| 1901-2 | 29,847 | 20,488 | 50,335 | 59.3 | 40.7 | 80.2 | 55.0 | 135.2 |
| 1902-3 | 29,856 | 18,745 | 48,601 | 61.4 | 38.6 | 79.5 | 49.9 | 129.4 |
| 1903-4 | 29,366 | 20,595 | 49,961 | 58.8 | 41.2 | 77.6 | 54.4 | 132.0 |
| 1904-5 | 29,849 | 20,789 | 50,638 | 58.9 | 41.1 | 78.2 | 54.4 | 132.6 |
| 1905-6 | 29,252 | 21,843 | 51,095 | 57.3 | 42.7 | 75.9 | 56.7 | 132.6 |
| 1906-7 | 29,424 | 21,365 | 50,789 | 57.9 | 42.1 | 75.7 | 55.0 | 130.7 |
| 1907-8 | 30,033 | 21,537 | 51,570 | 58.2 | 41.8 | 76.6 | 55.0 | 131.6 |
| 1908-9 | 30,667 | 20,841 | 51,508 | 59.5 | 40.5 | 77.6 | 52.7 | 130.3 |
| 1909-10 | 30,602 | 19,514 | 50,116 | 61.1 | 38.9 | 76.7 | 48.9 | 125.6 |
| 1910-11 | 29,693 | 21,566 | 51,259 | 57.9 | 42.1 | 73.8 | 53.6 | 127.4 |
| 1911-12 | 32,052 | 21,203 | 53,255 | 60.2 | 39.8 | 79.0 | 52.3 | 131.3 |

If this period be divided into two equal parts it will be seen that there was an increase in the total supply of nearly $1\frac{1}{4}$ million cwts. on the average of the later six years, of which about 800,000 was in home supplies and about 400,000 in imported supplies. This increase, however, has not kept pace with the growth of population. The average supply per head during the earlier six years was 133 lbs., while during the later six years it was $129\frac{1}{4}$ lbs. The reduction in oversea supplies alone amounts to $1\frac{1}{2}$ lbs. per head of population. There appears to have been no indication of a falling off in the relative position of home supplies, about 59 per cent. of the total meat supply being produced in the United Kingdom on the average of the whole period. The significant, and possibly from the consumer's point of view somewhat ominous, fact is that oversea supplies show insufficient expansion; or to speak more precisely, that the contraction of the supplies from North America on which reliance has for so long been placed has not been balanced by the increased supplies from the Southern hemisphere to the extent necessary to meet the increased demand. During the past six years the quantity of dead meat received from the United States has declined from $6\frac{1}{2}$ million cwts. in 1907 to less than three million cwts. in 1912, while those from Canada have fallen from nearly one million cwts. to less than half a million cwts. Supplies from New Zealand have shown no expansion, and practically the whole of the increased supplies have come from Argentina and Australia.

The insignificance to which imports of live animals have been reduced has already been noted, but the tendency to replace this trade by the importation of dead meat has been evident for many years past. This is succinctly shown in the following statement giving the average imports in four quinquennia since 1891 with the addition of the two latest years :—

| — | Live Cattle. | | Beef. | Live Sheep. | | Mutton. |
|-------------|-----------------|--|-----------------------|-----------------|--|-----------------------|
| | Thou- sands. | Equivalent weight in thousands of Cwts. | Thousands of Cwts. | Thou- sands. | Equivalent weight in thousands of Cwts. | Thousands of Cwts. |
| 1891-95 . | 447 | 3,040 | 2,712 | 407 | 284 | 2,154 |
| 1896-1900 . | 548 | 3,634 | 3,929 | 607 | 346 | 3,347 |
| 1901-05 . | 509 | 3,312 | 5,051 | 319 | 175 | 3,771 |
| 1906-10 . | 390 | 2,527 | 6,431 | 59 | 33 | 4,729 |
| 1911 . | 198 | 1,294 | 8,089 | 48 | 26 | 5,475 |
| 1912 . | 46 | 307 | 8,645 | 15 | 8 | 5,144 |

The value of the live cattle imported in 1912 was less than 1,000,000*l.*, while in 1897 it was nearly 10,500,000*l.* The United States supplied 39,987 head of the imports last year, Canada 6,800, and the Channel Islands 2,125. The value of live sheep imports in 1912 was 23,793*l.* as compared with 1,782,544*l.* for 1895, in which year the imports were unusually large. The United States supplied 14,237 of the year's total and Canada the remainder.

The following table shows the total available meat supply from abroad in each of the past six calendar years, the live imports being shown in equivalent weight of dead meat and "unenumerated" meat (not including rabbits, poultry, and game) being added. The figures are given in thousands of cwts :—

| Year. | Beef. | | Mutton. | | Pig-meat. | Unenumerated (excluding rabbits). | Total of Meat. |
|--------|-------|-------|---------|-------|-----------|--------------------------------------|-------------------|
| | Live. | Dead. | Live. | Dead. | | | |
| 1907 . | 3,064 | 6,034 | 59 | 4,618 | 7,320 | 780 | 21,875 |
| 1908 . | 2,475 | 5,998 | 44 | 4,451 | 7,754 | 900 | 21,622 |
| 1909 . | 2,062 | 6,584 | 4 | 4,887 | 6,441 | 906 | 20,884 |
| 1910 . | 1,403 | 7,557 | 0* | 5,556 | 5,290 | 916 | 20,732 |
| 1911 . | 1,294 | 8,089 | 26 | 5,475 | 6,513 | 978 | 22,375 |
| 1912 . | 307 | 8,654 | 8 | 5,144 | 6,058 | 1,082 | 21,253 |

* Less than 1,000 cwts.

The imports of chilled beef fell from 3,933,000 cwts. in 1911 to 3,876,000 cwts., the increase of the supplies from Argentina being less than the reduction of those from the United States, which sent only 4,000 cwts. of chilled beef.

The imports of frozen beef increased, especially from Argentina and Uruguay, but the receipts of frozen mutton were

considerably smaller from every country but New Zealand. Australia sent only 978,000 cwts. as compared with 1,292,000 cwts. in 1911; Argentina, 1,589,000 cwts. as compared with 1,782,000 cwts. New Zealand, however, supplied 2,165,000 cwts., an addition of 184,000 cwts. on the year.

Imports of fresh pork, including chilled and frozen, were 140,000 cwts. less than in 1911 owing principally to short supplies from the Netherlands. The supply of imported bacon was 4,634,000 cwts., or 235,000 cwts. less than in 1911; increased shipments from Denmark being more than set off by smaller shipments from North America.

The quantity of hams imported was 898,000 cwts., being a reduction of 57,000 cwts., in consequence of smaller shipments from the United States.

In the trade returns for 1912 the quantity and value of poultry imported alive were distinguished from that imported dead. Out of a total value of 846,000*l.* for all imports of poultry, 39,000*l.* represented the value of 896,000 head imported alive. 807,000*l.* represented the value of 246,000 cwts. of dead poultry, of which one half was from Russia, and the remainder chiefly from France, Austria-Hungary, the United States and Italy.

The imports of game were valued at 89,000*l.* in 1912, of which 27,000*l.* represented live imports.

Dairy Produce.

The quantity of butter imported in 1912 was 298,000 cwts. less than in 1911, but, on the other hand, there was an increase of 408,000 cwts. of margarine. The course of the import trade in dairy produce may be briefly shown by the following figures, giving in thousands of cwts. quinquennial averages from 1891 to 1910, with those of the two latest years:—

| — | Butter. 1,000 cwts. | Margarine. 1,000 cwts. | Cheese. 1,000 cwts. | Condensed Milk. 1,000 cwts. |
|-----------------|------------------------|---------------------------|------------------------|-----------------------------------|
| 1891-5 - - - - | 2,409 | 1,178 | 2,150 | 500 |
| 1896-00 - - - - | 3,247 | 927 | 2,455 | 799 |
| 1901-05 - - - - | 4,025 | 972 | 2,565 | 909 |
| 1906-10 - - - - | 4,229 | 958 | 2,433 | 948 |
| 1911 - - - - | 4,303 | 944 | 2,348 | 1,155 |
| 1912 - - - - | 4,005 | 1,352 | 2,309 | 1,222 |

The quantity per head of butter and margarine imported rose from 10·4 lbs. in 1891-5 to 13·2 lbs. in 1906-10 and 13·1 lbs. in 1912.

Supplies of butter from Russia, the Netherlands, France, and New Zealand were larger in 1912 than in the preceding year, but were more than set off by smaller receipts from Denmark,

Sweden, North America, and the Australian States. The shortage of supplies from Canada was noticeable, only 27 cwts. arriving in 1912, as compared with 62,000 cwts. in 1911. The reduction in supplies from Australia was even more marked.

The importation of margarine was the largest on record. All but 38,000 cwts. of the total came from the Netherlands.

The imports per head of cheese have remained practically stationary, but were rather less (5·7 lbs.) in 1912 than in any year since 1889.

The overseas supply of cheese in 1912 was 40,000 cwts. less than in 1911. Of the total, 1,353,000 cwts. were from Canada, and 544,000 cwts. from New Zealand, being less from Canada and more from New Zealand than in 1911. The receipt from the United States dwindled to 21,000 cwts., as against 150,000 cwts. in 1911. Imports from Holland and Italy showed an increase.

Smaller imports of eggs from Russia, Denmark, Germany, Sweden, and Austria-Hungary were slightly more than balanced by larger imports from the Netherlands, France, Italy, Egypt, and Morocco. The total supply for the year, 19,085,052 great hundreds, was consequently slightly larger than in 1911.

The imports of whole fresh milk, all from France, amounted in 1912 to 2,870 cwts., being about one-fourth of the quantity received in 1911, but otherwise the largest since 1902. The trade was confined to the months of February, November, and December. The receipts of cream, 5,464 cwts., were one-half of the quantity in 1911 and the smallest since 1907. No separated milk was imported in 1912, this being the first year in which the supply has ceased since the item was first shown separately in the returns in 1907. The supplies of "other preserved milk" were also the smallest since 1907. On the other hand, the importation of condensed milk has continued to grow larger, the year's total, 1,222,000 cwts., forming a fresh record, exceeding that of 1911 by 66,000 cwts.

Corn.

The changes in the imports of corn in 1912 as compared with 1911 are summarised in the following table, in which the quantities are shown in thousands of cwts. :—

| — | 1911. | 1912. | Increase (+) or Decrease (-). |
|--|---------|---------|-------------------------------------|
| Wheat (including flour as grain) - - - - | 112,047 | 123,725 | + 11,678 |
| Barley - - - - | 24,545 | 20,126 | - 4,419 |
| Oats - - - - | 18,273 | 18,300 | + 27 |
| Maize - - - - | 38,602 | 43,877 | + 5,275 |
| Beans - - - - | 1,029 | 1,257 | + 228 |
| Peas - - - - | 2,196 | 2,575 | + 379 |

Larger supplies were received of each kind of corn, except barley.

The importation of wheat, including flour, in 1912, constitutes the largest yet recorded, exceeding the previous highest, that of 1910, by over 4,700,000 cwts. The supply of flour was only slightly more than in 1911, reduced supplies from the United States being nearly set off by larger shipments from Canada. The grain imports rose, however, from 98,000,000 cwts. to 109,600,000 cwts., or 12 per cent. Supplies from Russia declined from 18,000,000 cwts. to 9,000,000 cwts., from Roumania from 1,950,000 cwts. to 700,000 cwts., from Australasia from 14,600,000 cwts. to 12,200,000 cwts. On the other hand, the United States sent 20,000,000 cwts. as against 13,000,000 cwts.; Argentina, 18,800,000 cwts. as against 14,750,000 cwts.; India, 25,380,000 cwts. as against 20,160,000 cwts., and Canada, 21,550,000 cwts. as against 14,370,000 cwts.

The proportion of wheat (including flour) imported from within the British Empire was 53 per cent. in 1912, as compared with 48·6 per cent. in 1911.

Russia, Roumania, Turkey, and the United States all sent smaller supplies of barley. This decrease was, however, partly set off by much larger consignments from India, which sent 6,500,000 cwts. as against 2,380,000 cwts. in 1911. Germany and Canada also sent larger quantities.

Of imported oats, 42 per cent. came from Argentina, which sent 7,660,000 cwts. as compared with 5,600,000 cwts. in 1911. This increase and larger consignments from Germany and North America more than balanced reduced supplies from south-east Europe.

The increased imports of peas were owing to larger supplies from India, Germany, Japan, the Netherlands and New Zealand. The total supply forms the largest since 1899.

The increased importation of beans was due to an augmentation of 500,000 cwts. from China.

The imports of maize in 1912, nearly 44,000,000 cwts., were the largest since 1907, when 53,380,000 cwts. were imported. Of the total in 1912, no less than 28,800,000 cwts. came from Argentina, this forming the largest quantity yet received in any year from that country. Supplies from most other countries were considerably less than in 1911; imports from Russia fell from 8,400,000 cwts. to 2,600,000 cwts.; from Roumania, from 11,850,000 cwts. to 4,200,000 cwts.; from the United States, from 10,400,000 cwts. to 4,400,000 cwts.; and from Canada, from 1,500,000 cwts. to only 58,000 cwts.

Fruit, Vegetables and Hops.

The total value of the raw fruit and nuts imported in 1912, 11,210,000*l.*, was practically the same as in 1911. The supplies

of apples, oranges, pears, and bananas were larger, but those of all other kinds were smaller, than in 1911. Of apples 3,882,000 cwts. were received, an increase of 549,000 cwts.; the receipts of bananas, 6,979,000 bunches, were 264,000 bunches more; oranges, though greater in quantity, were of slightly less value.

The imports of raw vegetables were markedly greater than in 1911, both as regards quantity and value. Of onions 9,353,000 bushels were received, as compared with 8,600,000 bushels; 1,425,000 cwts. of tomatoes, as compared with 1,362,000 cwts.; and 5,828,000 cwts. of potatoes, as compared with 3,253,000 cwts. Of the potatoes, 1,499,000 cwts. came from the Netherlands, which sent only 166,000 cwts. in 1911. France supplied 1,425,000 cwts. as against 996,000 cwts., and Belgium 912,000 cwts. as against only 29,000 cwts. On the other hand consignments from the Canary Islands were smaller.

The imports of hops were 244,000 cwts. in 1912, being 75,000 cwts. more than in 1911. Supplies from the United States amounted to 96,000 cwts., a slight increase, but the additional supply came principally from Germany, Canada, and Austria-Hungary.

Wool.

The importation of wool was over 810,000,000 lbs. in 1912—the largest quantity on record—although the value, 33,412,000*l.* was exceeded in 1910. The net amount retained in the country was 472,500,000 lbs. which has been exceeded only once before, in 1911, when 495,000,000 lbs. were retained. The supply from British possessions decreased by 9,000,000 lbs. but foreign supplies rose by 19,500,000 lbs., contributed principally by South America, France, and Russia. The Australian consignment fell from 324,000,000 lbs. to 285,000,000 lbs., thus more than balancing larger supplies from South Africa and New Zealand.

AGRICULTURAL EXPORTS.

The export trade in live stock was seriously disturbed during 1912 by the outbreak of foot and mouth disease in the United Kingdom, and the restrictions which were imposed in consequence. It is, therefore, satisfactory to record that, although the number of British and Irish cattle exported was some 700 less, the total value was greater than in the preceding year. The number and value of British and Irish stock exported in the two years are shown in the following table (*see* page 285).

Of the horses exported, 1,503 were stallions, 20,353 mares, and 45,073 geldings. Over two-thirds of the total were valued at less than 10*l.* per head, *i.e.* 18,517 at less than 5*l.*, and 27,059 at 5*l.* and less than 10*l.* The greater proportion of these went to Belgium and the Netherlands. These countries and France appear also to have been the best customers for horses of higher

| | 1912. | | | 1911. | | |
|----------|--------|-----------|----------|--------|-----------|----------|
| | No. | Value. | Average. | No. | Value. | Average. |
| | | £ | £ | | £ | £ |
| Horses - | 66,929 | 1,468,603 | 22 | 64,196 | 1,464,095 | 23 |
| Cattle - | 3,869 | 158,362 | 41 | 4,551 | 133,175 | 29 |
| Sheep - | 1,914 | 17,339 | 9 | 3,058 | 30,225 | 10 |
| Pigs - | 590 | 6,313 | 11 | 566 | 6,334 | 12 |

values, the other chief destinations being Denmark, Germany, United States, Canada, and South Africa. Among the countries taking horses of highest average value were Austria-Hungary, which took 26 at an average of 665*l.*; Australia, 216 at an average of 306*l.*; and New Zealand, 44 at an average of 283*l.* Of the cattle exported, 1,866 were described as for breeding, the remainder going to the Channel Islands and Belgium for food. The principal buyers were the United States, South Africa, Argentina, and Canada. Of the sheep exported, 1,497 were described as for breeding, and were sent mainly to Germany, Belgium, Argentina, Chile, and the United States. Pigs were sent chiefly to Germany and Russia.

The quantity of potatoes exported in 1912 was exceptionally large, amounting to 360,685 tons, valued at 1,431,971*l.*, as compared with 116,828 tons, valued at 431,962*l.* in 1911. The exports of flour and corn offals were also larger than usual.

I have the honour to be, Sir,

Your obedient Servant,

R. H. REW.

3, St. James's Square, S.W.

14th June 1913.
